

# THE ALWIN CLEMENTS PRIZE IN NATURAL HISTORY

Established through a family donation in memory of Alwin Clements, who was a passionate preservationist of South Australian flora and fauna and an elected Fellow of the Natural History Society of South Australia.

The prize is awarded to an Honours or Masters student who best demonstrates a research contribution to the conservation of Australian wildlife.

| Year |                         |
|------|-------------------------|
| 2021 | Charlotte Lassaline     |
| 2020 | Tegan Dinsdale          |
| 2019 | Madalene Giannotta      |
| 2018 | Shannon James Robertson |
| 2017 | Gabrielle Hunt          |
| 2016 | Not awarded             |
| 2015 | Not awarded             |

## THE ALWIN CLEMENTS PRIZE IN NATURAL HISTORY

### Rules

In 2012, Peter Clements donated \$23,000 to the University to establish a prize in memory of his father, Alwin, who was a passionate preservationist of South Australian flora and fauna and an elected fellow of the Natural History Society of South Australia.

This is an endowed prize with the capital held in the University's Endowment Fund<sup>1</sup> and the income distribution each year used to fund the prize.

The following rules now apply:-

1. The prize shall be known as 'The Alwin Clements Prize in Natural History'.
2. The value of the prize will be \$1,000 per year, or such other amount as the University shall from time to time determine provided that the value of the prize does not exceed the annual distribution of interest available from the Endowment Fund.
3. Any surplus income which is not awarded as part of this prize shall be added to the capital sum in the Endowment Fund from time to time.
4. The prize will be awarded annually to a student undertaking a Masters or Honours degree in the Faculty of Sciences in research directly related to the conservation, preservation or ecology of Australian native flora or fauna. To be considered, the research project should include a field work component. The prize will be awarded to the student who best demonstrates the contribution of their research to the conservation of Australian wildlife.
5. If there is more than one candidate of equal merit, then the prize shall be shared.
6. If there is no candidate of sufficient merit in a given year then the prize will not be awarded in that year and the money will be used in subsequent years. Multiple prizes may be given in those subsequent years if funds allow.
7. The University may vary the rules from time to time in a manner consistent with the University's legal obligations and [policies](#).

Rules approved by Deputy Vice-Chancellor and Vice-President (Academic) 17 August 2016
