## The Steel Reinforcement Institute of Australia Prize

### PRIZE RULES

#### Establishment

This Prize has been established by a contribution to the University by The Steel Reinforcement Institute of Australia (South Australian Branch) for the purpose of encouraging and assisting students to complete a degree in Civil Engineering.

In support of the prize the Steel Reinforcement Institute of Australia (South Australian Branch) shall provide to the University as a result of a pledge request, an annual amount equivalent to \$500.00 (GST free).

#### Value

The value of the Prize will be \$500.00 per year, until otherwise determined by the University after discussions with the contributor.

In addition, the successful candidate will also be awarded a certificate, supplied by the Steel Reinforcement Institute of Australia (South Australian Branch).

#### Eligibility

The prize will be awarded annually to eligible students enrolled in the course CEME 3002 Reinforced Concrete Design for the purpose of completing a degree in the Bachelor of Engineering (Honours).

#### Selection of Candidate

The Head of the School of Civil, Environmental and Mining Engineering or nominee will award the prize to the student who obtains the best result in the final assessment of the Level III course **CEME 3002 Reinforced Concrete Design**.

If there is no candidate of sufficient merit in a given year then the prize will not be awarded in that year and the money will be used in subsequent years.

If there is more than one candidate of equal merit, then the prize shall be shared equally.

#### Variations

The University may vary the rules from time to time in a manner consistent with the original objectives of the prize.
