

Pathway to major in Physics

Year 1 / Level I (not more than 30 units)				
S1	# PHYSICS 1100 Physics IA	# MATHS 1011 Mathematics IA	** Δ Approved Level I Elective	SCIENCE 1400 Science or Fiction I [or Semester 2]
S2	# PHYSICS 1200 Physics IB	# MATHS 1012 Mathematics IB	** Approved Level I Elective	Approved Level I Elective
Year 2 / Level II				
S1	PHYSICS 2510 Physics IIA	MATHS 2101 Multivariable & Complex Calculus	MATHS 2102 Differential Equations	Approved Level I or Level II Elective
S2	† PHYSICS 2520 Physics IIB	PHYSICS 2534 Electromagnetism II	‡ PHYSICS 2532 Classical Physics II	PHYSICS 2530 Astrophysics II or Approved Level I or Level II Elective
*Global Experience: We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
Year 3 / Level III (at least 24 units)				
S1	# PHYSICS 3542 Physics III (6 units)		§ ‡ Δ PHYSICS 3534 Computational Physics III or Approved Level III Elective	§ PHYSICS 3532 Atmospheric and Astrophysics III or Approved Level III Elective
*Global Experience: We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
S2	PHYSICS 3002 Experimental Physics III	§‡ PHYSICS 3544 Quantum Mechanics III or Approved Level III Elective	§‡ PHYSICS 3006 Advanced Dynamics and Relativity III or Approved Level III Elective	§† PHYSICS 3540 Optics and Photonics III or Approved Level III Elective

ALL COURSES ARE WORTH 3 UNITS UNLESS OTHERWISE SPECIFIED

Key

Core Course	Elective Course	Course for Major

Check [Course Planner](#) or with the Sciences Service Hub to ensure you meet the pre-requisites prior to enrolling into these courses.

** Students who successfully complete CHEM 1101 Foundations of Chemistry IA and CHEM 1201 Foundations of Chemistry IB and who wish to continue their study of Chemistry at Level II will be required to undertake an additional course, CHEM 1312 Foundations of Chemistry IS during Summer School before commencing Level II Chemistry studies.

Δ COMP SCI 1012 or COMP SCI 1011 or COMP SCI 1102 or COMP SCI 1015 are a pre-requisite for PHYSICS 3534 Computational Physics III

† PHYSICS 2520 is a pre-requisite for PHYSICS 3540 Optics and Photonics III.

‡ PHYSICS 2532 Classical Physics II is a pre-requisite for PHYSICS 3006 Advanced Dynamics, Relativity III, PHYSICS 3534 Computational Physics, and assumed knowledge for PHYSICS 3542 Physics III and PHYSICS 3544 Quantum Mechanics III.

Enrolment Advice

- A total of **72 units** are required to complete Bachelor of Science program.
- No more than 30 units of courses can be completed at Level I.
- At least 24 units of Science courses must be completed at Level III.
- A candidate may substitute an appropriate course chosen from Level II to fulfil the requirements of Level I, or from Level III to fulfil the requirements of Level I or II.
- There is a limitation on the amount of 'Non-Science' courses that can be presented. **Do not assume that because a course is offered through Sciences, that it automatically counts as 'Science'** (e.g. Animal Science courses). Please refer to your [Program Rules](#).
- No level III course may be used to meet the requirements of more than one major. (For example, if *Soil Ecology and Nutrient Cycling* is used to qualify for a Soil Science major, it cannot also be used to qualify for an Ecology Major).
- Please consult your [Program Coordinator](#) or contact the Sciences Service Hub for advice.
- Under the University's [Student Charter](#), it is the student's responsibility to enrol correctly in accordance with the University's program requirements, course prerequisites and University procedures, and ensure that your enrolment will enable you to graduate in your chosen program. If this study plan is unclear or contains an error, it is recommended you seek confirmation and advice from the Sciences Service Hub at the earliest opportunity.

Pathway to major in Physics

Enrolment Errors

Please [submit the relevant form](#) to request a unit-overload waiver, prerequisite waiver, timetable clash resolution or a course/class full request.

Complementary Majors

The following majors are often pursued by students as well as the above major, as a complementary field

- Chemistry
- Geology
- Mathematics

Electives and Broadening

You may complete up to 9 units of 'non-science' elective courses at Level I and/or Level II. Of these courses a maximum of 6 units can be chosen at Level I. Please refer to your Program Rules for electives and all other requirements, including details on how to meet broadening experience <https://calendar.adelaide.edu.au/faculty/sciences>

For information about electives from other Faculties, course restrictions and pre-requisites, search the course planner: <https://access.adelaide.edu.au/courses/search.asp>

§ You must complete **at least one** of these courses in addition to PHYSICS 3542 and PHYSICS 3002 to complete the Major.

Global Experience

* We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3. To find opportunities available in your study area click [Study Overseas](#).
