

**Bachelor of Science (Natural Resources)**  
**only available to students who commenced in or prior to 2015**

Year 1 / Level I (not more than 30 units)				
S1	# <a href="#">BIOLOGY 1101</a> <i>Biology I: Molecules, Genes &amp; Cells</i> OR # <a href="#">BIOLOGY 1401</a> <i>Concepts in Biology I</i>	<a href="#">GEOLOGY 1103</a> <i>Earth Systems I</i>	<a href="#">SCIENCE 1400</a> <i>Science or Fiction I</i>	<a href="#">Approved Level I Elective</a>
S2	<a href="#">BIOLOGY 1202</a> <i>Biology I: Organisms</i>	<a href="#">ENV BIOL 1002</a> <i>Ecological Issues I</i>	<a href="#">STATS 1004</a> <i>Statistical Practice I (Life Sciences)</i> [or Semester 1]	<a href="#">Approved Level I Elective</a>
Year 2 / Level II				
S1	<a href="#">ENV BIOL 2500</a> <i>Botany II</i>	<a href="#">SOIL&amp;WAT 2500WT</a> <i>Soil &amp; Water Resources II</i>	<a href="#">SPATIAL 2501</a> <i>Spatial Information and Land Evaluation II</i>	<a href="#">Approved Level II Elective</a>
S2	<a href="#">ENV BIOL 2502</a> <i>Ecology II</i>	<a href="#">Approved Level II Elective</a>	<a href="#">Approved Level II Elective</a>	<a href="#">Approved Level II Elective</a>
Year 3 / Level III (at least 24 units)				
S1	<a href="#">ENV BIOL 3510</a> <i>Research Methods in Ecology III</i>	<a href="#">SOIL&amp;WAT 3017WT</a> <i>Soil &amp; Water: Management &amp; Conservation III</i>	<a href="#">Approved Level III Elective</a>	<a href="#">Approved Level III Elective</a> [Semester 1 or 2]
S2	Δ <a href="#">ENV BIOL 3580</a> <i>Conservation Biology III</i> or approved Level III ENV BIOL course	<a href="#">Approved Level III Elective</a>	<a href="#">Approved Level III Elective</a>	<a href="#">SPATIAL 3007WT</a> <i>GIS for Environmental Management III [Summer School]</i> or <a href="#">SPATIAL 3020WT</a> <i>GIS for Agriculture &amp; Natural Resource III [Winter School]</i>

ALL COURSES ARE WORTH 3 UNITS UNLESS OTHERWISE SPECIFIED

### Key

<b>Core Course</b>	Elective Course
--------------------	-----------------

# Check [Course Planner](#) or with the Faculty of Sciences Office to ensure you meet the pre-requisites prior to enrolling into this course.

Δ ENV BIOL 3121 Concepts in Ecology III is listed as assumed knowledge for ENV BIOL 3580 Conservation Biology III.

### Enrolment Advice – Courses

- Only ONE of BIOLOGY 1201 Biology I: Human Perspectives or BIOLOGY 1202 Biology I: Organisms may be presented towards the Bachelor of Science (Natural Resources).
- The following courses cannot be presented towards the Bachelor of Science (Natural Resources):
  - ANAT SC 1102 Human Biology IA
  - ANAT SC 1103 Human Biology IB
  - COMP SCI 1003 Internet Computing

### Enrolment Advice – General

- It is your responsibility to ensure you are correctly enrolled. Enrolment into courses outside of the Study Plan and Enrolment Advice listed could affect your eligibility to graduate.
- A total of **72 units** are required to complete the Bachelor of Science (Natural Resources) program.
- No more than 30 units of courses can be completed at Level I.
- At least 24 units of Science courses must be completed at Level III.
- You may substitute an appropriate course chosen from Level II to fulfil the requirements of Level I, or from Level III to fulfil the requirements of Level I or II.
- There is a limitation on the amount of 'Non-Science' courses that can be presented. **Do not assume that because a course is offered through Sciences, that it automatically counts as 'Science'** (e.g. Animal Science courses). Please refer to your [Program Rules](#). In doubt consult the Faculty Office for advice.
- If you commenced your program prior to 2014, please refer to the variations to your study plan below.
- Please consult your [Program Coordinator](#) or contact the Faculty of Sciences Office for advice.

**Bachelor of Science (Natural Resources)**  
**only available to students who commenced in or prior to 2015**

### Electives and Broadening

You may complete up to 9 units of 'Non-Science' elective courses at Level I or Level II. Of these courses, a maximum of 6 units can be chosen at Level I from other Faculties of the University. Note that no courses at Level III can be chosen from other Faculties of the University.

You must complete elective courses to fulfil the requirements of your Program: Please refer to your Program Rules for electives and all other requirements <https://calendar.adelaide.edu.au/faculty/sciences>

For information about electives from other faculties, course restrictions and pre-requisites, search the course planner: <https://access.adelaide.edu.au/courses/search.asp>

### Global Experience

The University of Adelaide is committed to offering its students the opportunity to study overseas through a Global Learning Experience. This experience is available in a wide range of degrees and can include student exchange (for either one or two full semesters), study tours, internships and placements. There are many exciting opportunities in Europe, Asia, the Americas, Africa, and Oceania ranging from a few weeks to a full academic year.

The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3. To find Global Learning opportunities available in your study area click [Global Experiences](#).

---

### Variations for Students who commenced in or prior to 2015

- Level III: ENV BIOL 3220 Issues in Sustainable Environments III, has been replaced by SOIL&WAT 3017WT Soil & Water: Management & Conservation III.
- Level III: ENV BIOL 3006 Research Methods in Environmental Biology III, has been replaced by ENV BIOL 3510 Research Methods in Ecology III.

### Variations for Students who commenced in or prior to 2014 or 2013

- Complete courses to the value of 24 units at each of Level I, II and III.
- Level I: Not required to complete SCIENCE 1100 Principles & Practice of Science I or SCIENCE 1400 Science or Fiction I, an approved Level I Elective 1 can be undertaken.

### Variations for Students who commenced in 2012

- Complete courses to the value of 24 units at each of Level I, II and III.
- Level I: Not required to complete SCIENCE 1100 Principles & Practice of Science I, an approved Level I Elective 1 can be undertaken in lieu.
- Level I: Complete GEOLOGY 1100 Earth's Interior I
- Level II: Complete GEOLOGY 2500 Sedimentary Geology II.
- Level III: Not required to complete ENV BIOL 3006 Research Methods in Environmental Biology III, but students are encouraged to undertake or enrol in an Approved Level III Elective.
- Level III: Not required to complete ENV BIOL 3008 Conservation and Restoration III, but students are encouraged to undertake or enrol in an Approved Level III Elective. .
- Level III: Environmental Geoscience thematic grouping available.
- Level III: The elective, AGRONOMY 3000RW Agroforestry III, is no longer offered.
- Level III: The elective, SPATIAL 3010 Earth Observation III, is attributed to the Environmental Geoscience thematic grouping.
- Level III: The elective, PLANT SC 3030AEX/BEX Integrated Weed Management III, can be presented towards the Conservation & Wildlife Ecology thematic grouping. Please note that this course is no longer offered.
- Level III: The elective, ENV BIOL 3006 Research Methods in Environmental Biology III, can be presented towards the Conservation & Wildlife Ecology thematic grouping.
- Level III: The elective, ENV BIOL 3008 Conservation & Restoration III, can be presented towards the Conservation & Wildlife Ecology thematic grouping.
- Level III: The elective, GEOLOGY 3504 Basins, Sediments and Regolith III, can be presented towards the Environmental Geoscience thematic grouping. Please note that this course is replaced by GEOLOGY 3505 Earth Systems History III.
- Level III: The elective, GEOLOGY 3500 Exploration Methods III, can be presented towards the Environmental Geoscience thematic grouping.
