

Pathway to major in Ecology and Spatial Science

Ecology & Spatial Science major is only available to students who commenced in or prior to 2021

Year 1 / Level I (not more than 30 units)				
S1	~ BIOLOGY 1101 Biology I: Molecules, Genes & Cells	** Approved Level I Elective	Approved Level I Elective	SCIENCE 1300 Principles & Practice of Research (Advanced) I
S2	BIOLOGY 1201 Biology I: Human Perspectives OR BIOLOGY 1202 Biology I: Organisms	** Approved Level I Elective	Approved Level I Elective	Approved Level I Elective
Year 2 / Level II				
S1	ENV BIOL 2503 Zoology II	Approved Level II Elective	Approved Level I or Level II Elective	Approved Level II Elective
S2	ENV BIOL 2502 Ecology II	Approved Level II Elective	Approved Level I or Level II Elective	SCIENCE 2300 Principles & Practice of Research (Adv) II [or Semester 1]
*Global Experience: We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
Year 3 / Level III (at least 24 units)				
S1	ENV BIOL 3510 Research Methods in Ecology III	ENV BIOL 3121 Concepts in Ecology III	# Level III Core Course or Approved Level III Elective	# Level III Core Course or Approved Level III Elective
*Global Experience: We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3.				
S2	SPATIAL 3007WT GIS for Environmental Management III [Summer School] OR SPATIAL 3020WT GIS for Agriculture & Natural Resource III [Winter School]	† SPATIAL 3010 Earth Observation III	# Level III Core Course or Approved Level III Elective	SCIENCE 3100 Principles & Practice of Research (Adv) III

ALL COURSES ARE WORTH 3 UNITS UNLESS OTHERWISE SPECIFIED

Key

Core Course	Elective Course	Course for Major
-------------	-----------------	------------------

Check [Course Planner](#) or with the Sciences Service Hub to ensure you meet the pre-requisites prior to enrolling into these courses.

** Students who successfully complete CHEM 1101 Foundations of Chemistry IA and CHEM 1201 Foundations of Chemistry IB and who wish to continue their study of Chemistry at Level II will be required to undertake an additional course, CHEM 1312 Foundations of Chemistry IS during Summer School before commencing Level II Chemistry studies.

~ Students who were unsuccessful in completing BIOLOGY 1101 Biology I: Molecules, Genes & Cells have the opportunity to undertake BIOLOGY 1001 Fundamentals of Biology in Summer School before commencing Level II courses

Enrolment Advice – General

- A total of **72 units** are required to complete Bachelor of Science (Advanced) program.
- No more than 30 units of courses can be completed at Level I.
- At least 24 units of Science courses must be completed at Level III.
- A candidate may substitute an appropriate course chosen from Level II to fulfil the requirements of Level I, or from Level III to fulfil the requirements of Level I or II.
- There is a limitation on the amount of 'Non-Science' courses that can be presented. **Do not assume that because a course is offered through Sciences, that it automatically counts as 'Science'** (e.g. Animal Science courses). Please refer to your [Program Rules](#).
- Please consult your [Program Coordinator](#) or contact the Sciences Service Hub for advice.
- Under the University's [Student Charter](#), it is the student's responsibility to enrol correctly in accordance with the University's program requirements, course prerequisites and University procedures, and ensure that your enrolment will enable you to graduate in your chosen program. If this study plan is unclear or contains an error, it is recommended you seek confirmation and advice from the Sciences Service Hub at the earliest opportunity.

Pathway to major in Ecology and Spatial Science

Ecology & Spatial Science major is only available to students who commenced in or prior to 2021

‡ You must complete **courses to the value of at least 3 units** from these courses in addition to ENV BIOL 3121 Concepts in Ecology III, ENV BIOL 3510 Research Methods in Ecology III, SPATIAL 3010 Earth Observation III, SCIENCE 3100 Principles & Practice of Research (Adv) III & SPATIAL 3007WT GIS for Environmental Management III or SPATIAL 3020WT GIS for Agriculture & Natural Resource III to complete the Major:

- ENV BIOL 3004 Freshwater Ecology III
- ENV BIOL 3010 Marine Ecology III
- ENV BIOL 3580 Conservation Biology III

Electives and Broadening

You may complete up to 9 units of 'non-science' elective courses at Level I and/or Level II. Of these courses a maximum of 6 units can be chosen at Level I. Please refer to your Program Rules for electives and all other requirements, including details on how to meet broadening experience <https://calendar.adelaide.edu.au/faculty/sciences>

For information about electives from other Faculties, course restrictions and pre-requisites, search the course planner: <https://access.adelaide.edu.au/courses/search.asp>

Enrolment Errors

Please [submit the relevant form](#) to request a unit-overload waiver, prerequisite waiver, timetable clash resolution or a course/class full request.

Variations for students who commenced in 2016

- Level III: ENV BIOL 3006 Research Methods in Environmental Biology III, has been replaced by ENV BIOL 3510 Research Methods in Ecology III.

Global Experience

* We recommend students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3. To find opportunities available in your study area click [Study Overseas](#).
