

EXPRESSION OF INTEREST FORM HONOURS PROGRAM – 2022

Any student interested in doing Honours within the School of Mathematical Sciences should complete this form and return it to the School Office maths@adelaide.edu.au

This form needs to be submitted in the School Office by the following dates:

<u>Semester 1 Commencement</u>	<u>Semester 2 Commencement</u>
<i>1st December prior to Semester 1</i>	<i>15th July prior to Mid-Year</i>

The details you provide below will be used to contact you with regard to this application. Please ensure they are current and that you have regular access to your email during both the semester and semester breaks.

Name:

Student ID:

Address:

Phone:

Email:

Discipline(s) of Interest:

In which semester do you wish to enrol?

Semester 1

Semester 2

Please provide any additional information relevant to your choice of project:

(Courses or areas you have enjoyed studying, topics in which you are interested.)

Have you spoken with any potential supervisors yet, and if so, who?

Interested in Honours?

Have you considered doing an Honours Degree in Mathematical Sciences?

The School of Mathematical Sciences strongly encourages all able students to do Honours. An Honours degree is very attractive to future employers and provides a pathway to further studies, such as a Masters or PhD.

For details on research strengths of the discipline and possible Honours projects, talk to your lecturers, or visit [Honours | Faculty of Sciences, Engineering and Technology | University of Adelaide](#)

What does Honours involve?

Over the duration of one year, or two years part time. Honours students will carry out an Honours project – which includes writing a thesis – under the supervision of a staff member in the School of Mathematical Sciences or joint honours with other disciplines. Each student will present a seminar and gain research training by attending a non-assessable course on research related issues in addition to undertaking five (3 unit) courses.

Who should you contact?

Honours Coordinator – Dr David Baraglia, Email: david.baraglia@adelaide.edu.au

OR,

The School Office Email: maths@adelaide.edu.au

What are the prerequisites?

The basic prerequisite for undertaking honours studies in the mathematical sciences is achieving at least a credit average (grade point average of 5.0) in 12 units of Applied Mathematics, Pure Mathematics or Statistics courses at the University of Adelaide.

Choosing your project

After consultation with the relevant staff member and with potential supervisors, each honours student will be assigned a supervisor, who will advise on the choice of lecture program and give guidance on the writing of the project. It is your responsibility to initiate contact with such potential supervisors, well before the honours year begins.
