

# Hydrogen Storage and Production Conference 2022

**20-21 OCTOBER**

**Tyree (H6)  
UNSW Kensington  
OR ONLINE!**

Explore emerging trends and opportunities in hydrogen storage and production, and connect with a diverse group of researchers, service providers, operators and policy-makers on the directions and challenges in this new and fast developing field of expertise.

## Topics

- Hydrogen storage (with focus on geostorage)
- Hydrogen production
- Hydrogen utilisation
- Hydrogen economics

## Invited Speakers

- Andrew Feitz (Director, Low Carbon Geoscience at Geoscience Australia)
- Graham Nathan (Research Director, HILT CRC & Centre of Energy Technology)
- Francois Aguey-Zinsou (Professor, University of Sydney)
- Jonathan Ennis-King (Team Leader, CSIRO)
- Nicole Dopffel (Senior Researcher, NORCE)
- Rouhi Farajzadeh (Senior Engineer, Shell)
- Stefan Iglauer (Professor, Edith Cowan University)
- Tara Hosseini (Senior Research Scientist, CSIRO)
